Cardinal Orthodontics Opens in Ballwin

ST. LOUIS, MO – Cardinal Orthodontics has officially opened its doors in Ballwin and is now accepting appointments for children and adults. This second office is conveniently located at 15028 Manchester Road, Ballwin, MO, 63011, just minutes west of Highway 141.

As a new member of the Ballwin community, Cardinal Orthodontics is committed to helping patients achieve their individual smile goals through metal and clear braces, and Invisalign treatment.

Cardinal Orthodontics is a Diamond+ Invisalign provider, and uses the latest technologies, like the iTero Element Scanner, to make accurate predictable outcomes and make orthodontic treatment convenient with an average wear of 16 months or less.

Cardinal's commitment to providing excellent orthodontic care stems from Dr. James Galea's five-year experience working under Cardinal's sister practice Fry Orthodontics, an established practice with 12 locations throughout Kansas City, led by Dr. Jeremy Fry. Cardinal's first location is in the Webster Groves community of St. Louis.

"We're excited to open the second Cardinal Orthodontics office and are very fortunate to be conveniently located in two great communities, Webster Groves and Ballwin. With a free initial consultation and affordable payment options, we're ready to help you start your journey to a confident beautiful smile." says Dr. James Galea.

Cardinal Orthodontics helps ensure their patients' smiles last a lifetime by offering free 3D retainers for life. For more information visit, <https://cardinalorthodontics.com>.
